Dear Members,

### **Notification of change of ISO/TC 28 Secretariat**

As of 1 January 2008, responsibility for the ANSI-delegated ISO/TC 28 and AG Secretariat will transfer from API to ASTM International. The new Secretary will be:

Todd J. Sandler  
ASTM International  
Manager, International Coordination  
100 Barr Harbor Drive  
West Conshohocken, PA 19428-2959  
USA  
ph: +1 610-832-9731  
fx: +1 610-834-7085  
email: [tsandler@astm.org](mailto:tsandler@astm.org)

Please note that for the foreseeable future, the API-hosted ISO/TC 28 web page where existing N docs are posted (<http://committees.api.org/standards/isotc28/ndocs/ndoc.html>) will remain in place.

Some of you may already know Todd through his work administering the secretariats for ISO/TC 61, ISO/TC 61/SC 5 and ISO/TC 61/SC 9.

API on behalf of ANSI will continue to provide the Secretariat of ISO/TC 28/SC 2 Measurement of petroleum and related products.

This division of responsibilities for these particular ISO roles will more closely align with the standards portfolios of API and ASTM, and hence the interests of the constituents of these standards developing organizations. As you are probably well aware, many of the standards published by ISO/TC 28 and its subcommittees are based on those developed by API and ASTM.

It has been my pleasure serving as the Secretary to ISO/TC 28 and the AG for the last 12 years and I thank each of you for your support, encouragement and assistance provided to me over the years.

Yours sincerely

*Paula Watkins*
