2. Complete listing of projects

ISO 13879, *Petroleum and natural gas industries – Content and drafting of a functional specification*
Publication date: 1999-10-15, 1st edition.
Systematic Review (TC 67 N 869) issued with deadline: 2004-06-30. The result, supported by 12 P-Members (see doc. TC67 N 874A) was to confirm ISO 13879 for a further five years.

ISO 13880, *Petroleum and natural gas industries – Content and drafting of a technical specification*
Publication date: 1999-10-15, 1st edition.
Systematic Review (TC 67 N 869) issued with deadline: 2004-06-30. The result, supported by 12 P-Members (see doc. TC67 N 874B) was to confirm ISO 13880 for a further five years.

Next review deadline for both documents 2009-06-30.

ISO/TR 13881, *Petroleum and natural gas industries – Classification and conformity assessment of products, processes and services*
Publication date: 2000-04-15, 1st edition.
Systematic Review (TC 67 N 827) was issued with deadline: 2003-06-30 but the result was announced in November 2003. The result, supported by 11 P-Members (see doc. TC67 N 841) was to confirm this TR for a further three years.

In 2006 the new systematic review is to be issued for ISO/TR 13881.

ISO/TS 29001, *Petroleum, petrochemical and natural gas industries – Sector- specific quality management systems – Requirements for product and service supply organizations*
Publication date: 2003-09-15

3. Specific areas of concern or progress

ISO 13879, ISO 13880 and ISO/TR 13881:

See above, all three documents are "confirmed" as current.

ISO/AWI 29001:2005 (rev. ISO/TS 29001:2003)

A proposal for revision of ISO/TS 29001 was circulated on 2005-03-09 (document ISO/TC 67 N905) and was supported by 12 P-members (see doc. ISO/TC 67 N905 and doc. ISO/TC 67/WG 2 N 99rev).

It is decided to set up a WG 2 Task Group "Revision TS 29001" under leadership of projectleader Mr. Durante. The Taskgroup will review and discuss all recommendations, requests and comments.

Timeframe proposed to ISO/TC 67:

Till 2006-05-01 Preparation of the working draft (WD) by the Task Group members

2006-05-01 WD ready for approval by WG 2

2006-07-01 WD accepted by WG 2 for the DTS procedure (forwarded to TC 67 secretariat)

2006-07/08 Start DTS procedure

2006-10/11 DTS Ballot closure

2007- 02/04 Publication revised ISO/TS 29001:2007

4. Specific actions proposed for TC 67

In 2006 the new systematic review is to be issued for ISO/TR 13881 by the ISO/TC 67 secretariat. Till September 2005 no comments or requests concerning this TR were received by the secretariat. If no additional comments are received by 2006-01-01, the WG 2 secretary will recommend ISO/TC 67 to confirm the TR for another three years.

5. WG 2 meetings since last TC 67 plenary meeting

A meeting of ISO/TC67WG2 took place on 1st July 2005 in Calgary (Canada). A first meeting of the 29001 Project Group for the revision of ISO/TS 29001 was held in conjunction with the API Q1 Revision Task Group on the 29th June 2005.

A meeting of the new WG 2 Task Group "Revision TS 29001", if necessary in conjunction with WG 2, is planned for June 2006.

Interpretations:

The following interpretation process for ISO/TC 67, according Annex G of N435 (ISO/TC 67 Procedures and Policies Guide), was confirmed and agreed by the WG 2 members:

- Requests for interpretation of ISO 9001 provisions (all text within the boxes of ISO/TS 29001) will be sent into the ISO/TC176/SC2 interpretations process and will be dealt with by ISO/TC 176/SC 2;
- Requests related to the supplementary provisions of ISO/TS 29001 will be decided upon by the convener of WG 2. Preferably this will be developed jointly between ISO/TC767/WG2 and the API SC18.
- Requests related to the Annex of Spec Q1 (the Monogram Program) would be developed solely by API under normal API process.
- Other issues will be decided upon by the convener of WG 2.
